

Reconnecting with your culture  
America

Guanajuato, Gto. Méx. 11 de octubre de 2021.

# Memorándum

Each president of the National Committee organizes his committee with experts and with competencies in the sector of pedagogy and cultural heritage and promotes the autonomy of events, seminars, projects with prior authorization of RWYC\_America. The project pursues the objectives of "Quality Education" of the United Nations Agenda 2030 and the International Research Center (Esempi di Architettura) together with the Polytechnic University of Valencia.

This project is currently in force and is part of the UNESCO Heritage intending to bring young generations closer to the values and contents of local cultures, strengthening local identities, knowledge of local traditions, and building a strong awareness and knowledge of their cultural heritage (tangible and intangible or living heritage).

The pedagogical method "Reconnect with your culture" brings children and young people closer to the themes of culture and civic education because only by knowing and enhancing their respective cultural heritages is it possible to appreciate the present and build the future well in the territories of their competence.

**Each president agrees to participate voluntarily and actively for the non-profit ethical project.**
